

Adithya Reddy

Software Developer

 adithyakittu@gmail.com  7702628405  Hyderabad  Adithya Reddy

About

Passionate software developer proficient in Python, Java, C++, and full-stack development. With multiple national level hackathon wins, competitive programming achievements, and hands-on projects in AI, backend, and web applications, I excel in both collaborative team settings and independent problem-solving.

Education

Bachelor of Engineering in Information Technology, 2023 – 2027
Vasavi College of Engineering
CGPA: 8.06 | SGPA (Sem 5): 8.67

Higher Secondary Education, FIITJEE 2021 – 2023
Score: 90.0

Projects

CuraFusion, 2nd Prize - Hackathon by IIT Hyderabad

Developed a real-time patient monitoring platform that auto-assigns doctors and delivers AI-based triage support. Utilizing Kafka and REST APIs, we stream patient vitals every five seconds, applied Pathway for alert detection, and integrated the Gemini API to provide AI-generated first-response instructions until the doctor arrives.

Tools Used: Python, Kafka, Pathway, Gemini API, REST APIs, Streamlit.

Power Grid Load Balancing Simulator, 1st Prize - Demux 2.0 Hackathon

Built a large-scale simulator to optimize electricity distribution using flow networks and min-cost max-flow algorithms. Modeled dynamic city demands, renewable energy intermittency, and probabilistic line failures to generate cost-efficient dispatch plans with blackout avoidance and overload prevention.

Tools Used: Python, NetworkX

Achievements

1st Winner Demux 2.0 National Level Hackathon by BVRIT

2nd Winner - Tinkerer's Lab National Level Hackathon by IIT Hyderabad

1st Winner - Innovasia National level Hackathon by VCE

Regionalist-IICPC

Elite+Gold in NPTEL Python Programming by IIT Ropar

Codechef rating: 1764

Specialist in Codeforces

Technologies

Programming Languages: Python, Java, C++

Web Development: HTML, CSS, JavaScript, Flask, Streamlit, REST APIs

AI & ML Tools: Gemini API, Pathway

Other Tools: Kafka, Git, Version Control
